

1. Write a bash script to echo your name 25 times

Ans:

```
#!/bin/bash
for i in {1..25}
do
    echo koushik Mahavadhi
done
```

2. What command should I use to display the first 30 entries of syslog file?

Ans: head -n 30 /var/log

3. What command should I use to display the last 30 entries of syslog file?

Ans: tail -n 30 /var/log

4. What command should I use to arrange the entries of a file

Alphabetically

Reverse order

Numerical order

Ans: sort command

5. Copee is a hard-working cop. He found a case and almost at the verge of cracking it. It could be his best breakthrough. He has the list of criminals but lots of duplicates are there. He needs to find the only one that is different. He sought your help. How will you sort this issue?

Ans: I will make a copy of criminal list and then I will use sort and uniq command. This will show only original names after removing duplicates

Sort filename | uniq

6. What are the four parts of file's permission?

Ans: read, write, execute, delete
